Other User Flows

Contact Support

Utilized by patients to contact trial support with questions or report issues with their masks.

Assigning Mask

Utilized by trial coordinator to assign a mask to a patient.

Surveys

For the Mt. Sinai trial, the user will be asked to fill out the following four surveys 3 times during the at home portion of the trial.

GAD-7	The GAD-7 survey consists of 7 questions about your quality of life, health, or other areas of your life.
PHQ-9	The PHQ-9 survey consists of 9 questions about your quality of life, health, or other areas of your life.
PSQI	The PSQI survey consists of 19 questions related to your usual sleep habits during the past month only
NPSI	The NPSI survey consists of 12 questions to evaluate the different symptoms of neuropathic pain.

Home Page

The home page consists of 5 sections designed to support the patient through the trial and reinforce adherent behavior. Here are the five sections with a brief description as to their purpose.

Actions	Utilized by the patient to start one of the trial workflows: Morning Log, Evening Log, Regular Session, End of Day Session
Notifications	Utilized by the patient to be aware of any missed Actions from the previous day.
Progress Cards	Utilized by the patient to track progress through the trial.
Surveys	Utilized by the patient to complete their surveys.
Support	Utilized by the patient to watch demonstration videos and other content.

Instructions

Register Tablet

1. Click the Register Tablet button on the home screen.

App Setup

Setup

Register Tablet

Register this tablet for use in the trial.

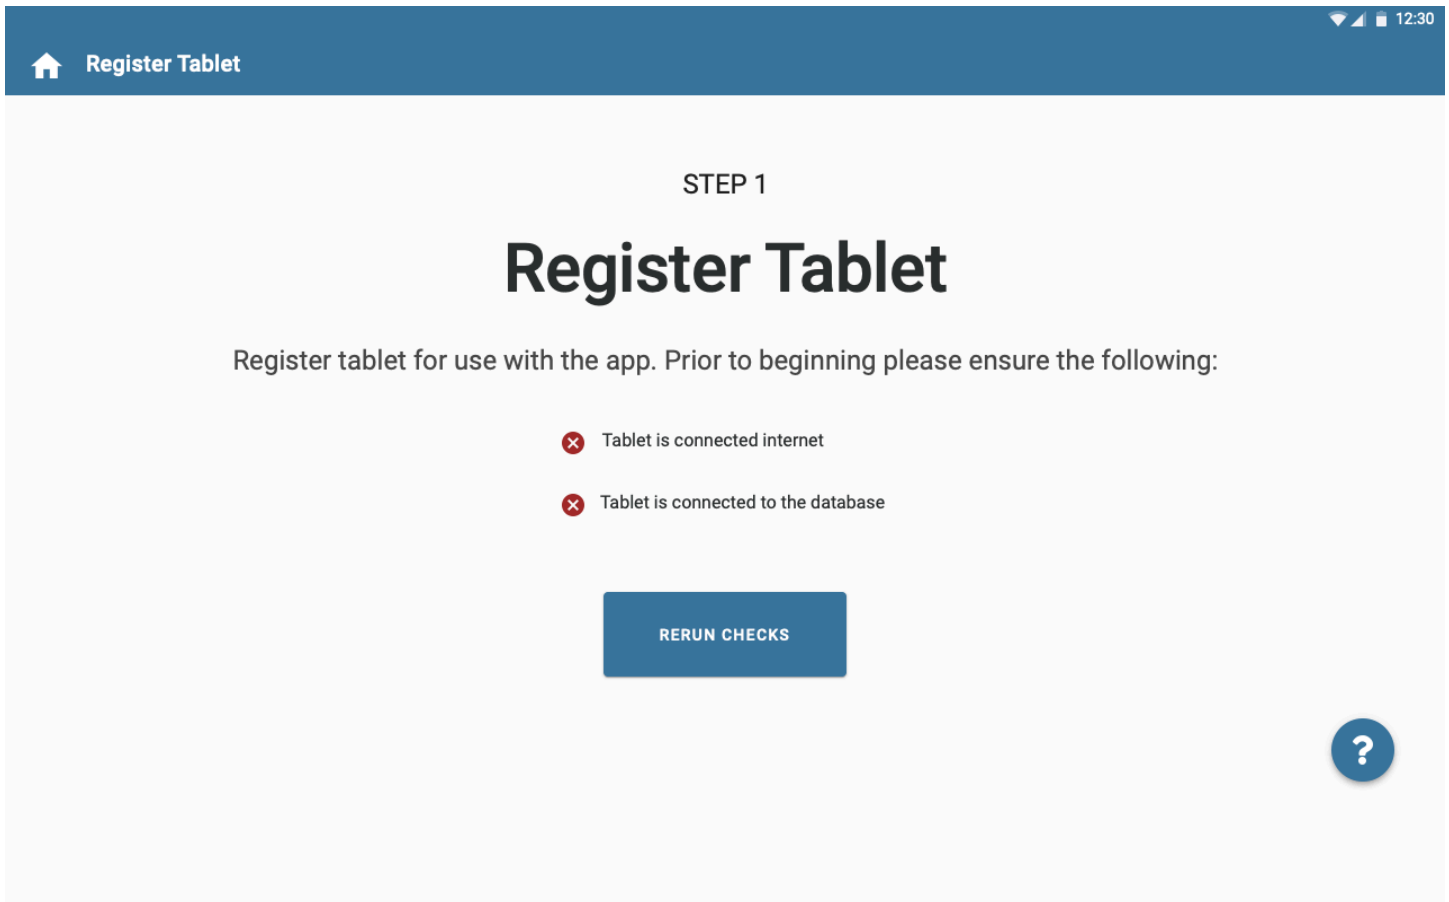

Register Patient

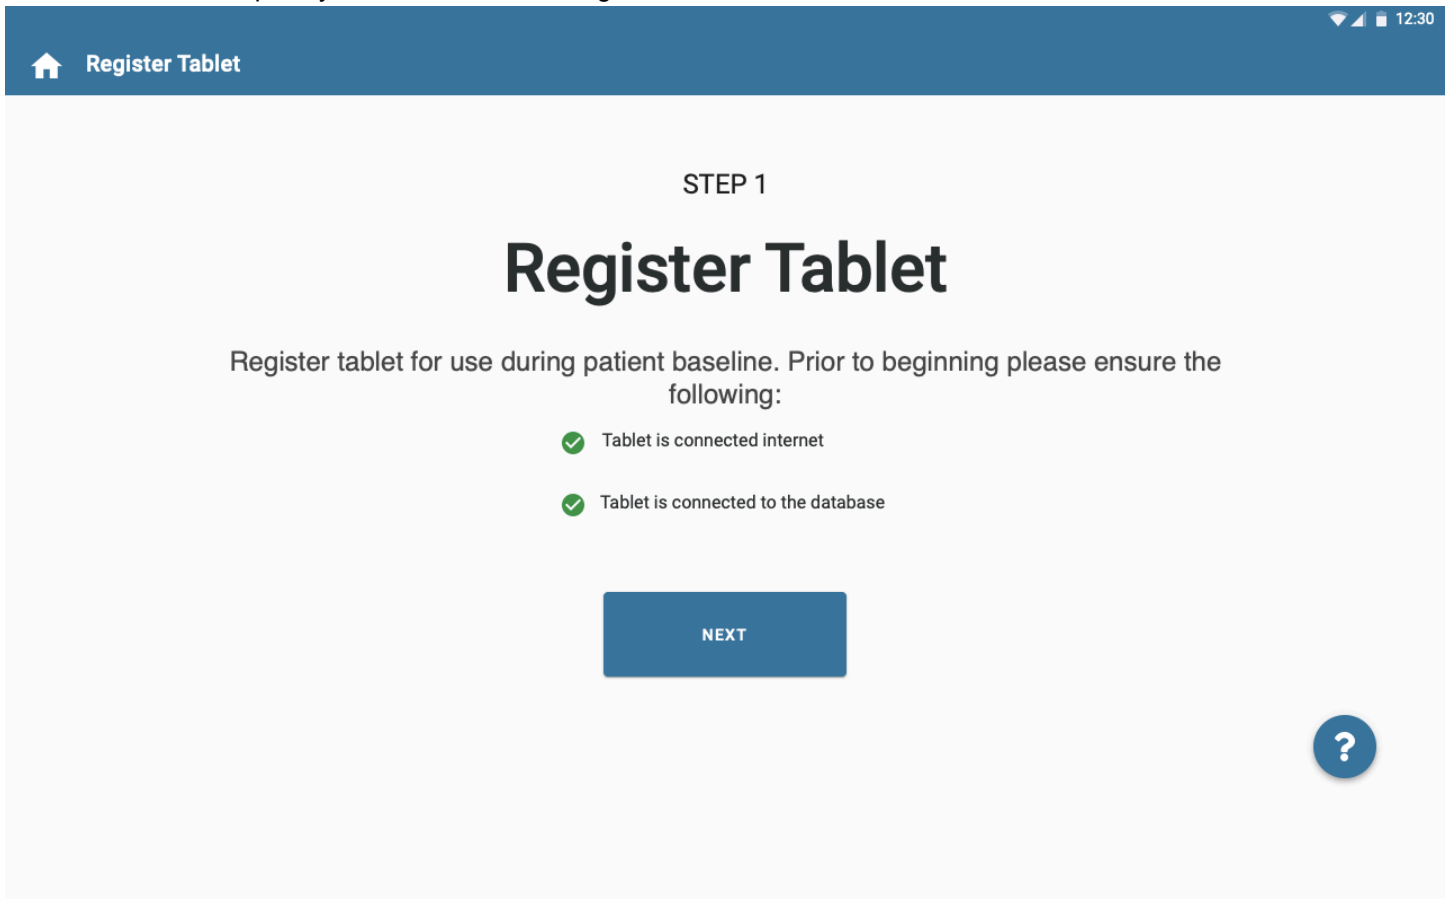

Assign a patient to use this tablet during the trial

- If the Wifi Checks fail, then please connect the tablet to Wifi and press the Rerun Checks button

3. Once the checks pass you will see the following screen. Press Next to continue:

4. Push the Create Account Button

STEP 2

Create Account

Push the Create Account button below to create an account for this tablet in the system.

[PREVIOUS](#)[CREATE ACCOUNT](#)

5. Once the account has been created you will see the following screen. Press Done to complete and return to the home page.

Tablet Registration Complete

The tablet has been successfully registered. Tablet registration details are listed below. These details can also be found in the settings menu. Click Done to exit and return-to the Home screen.

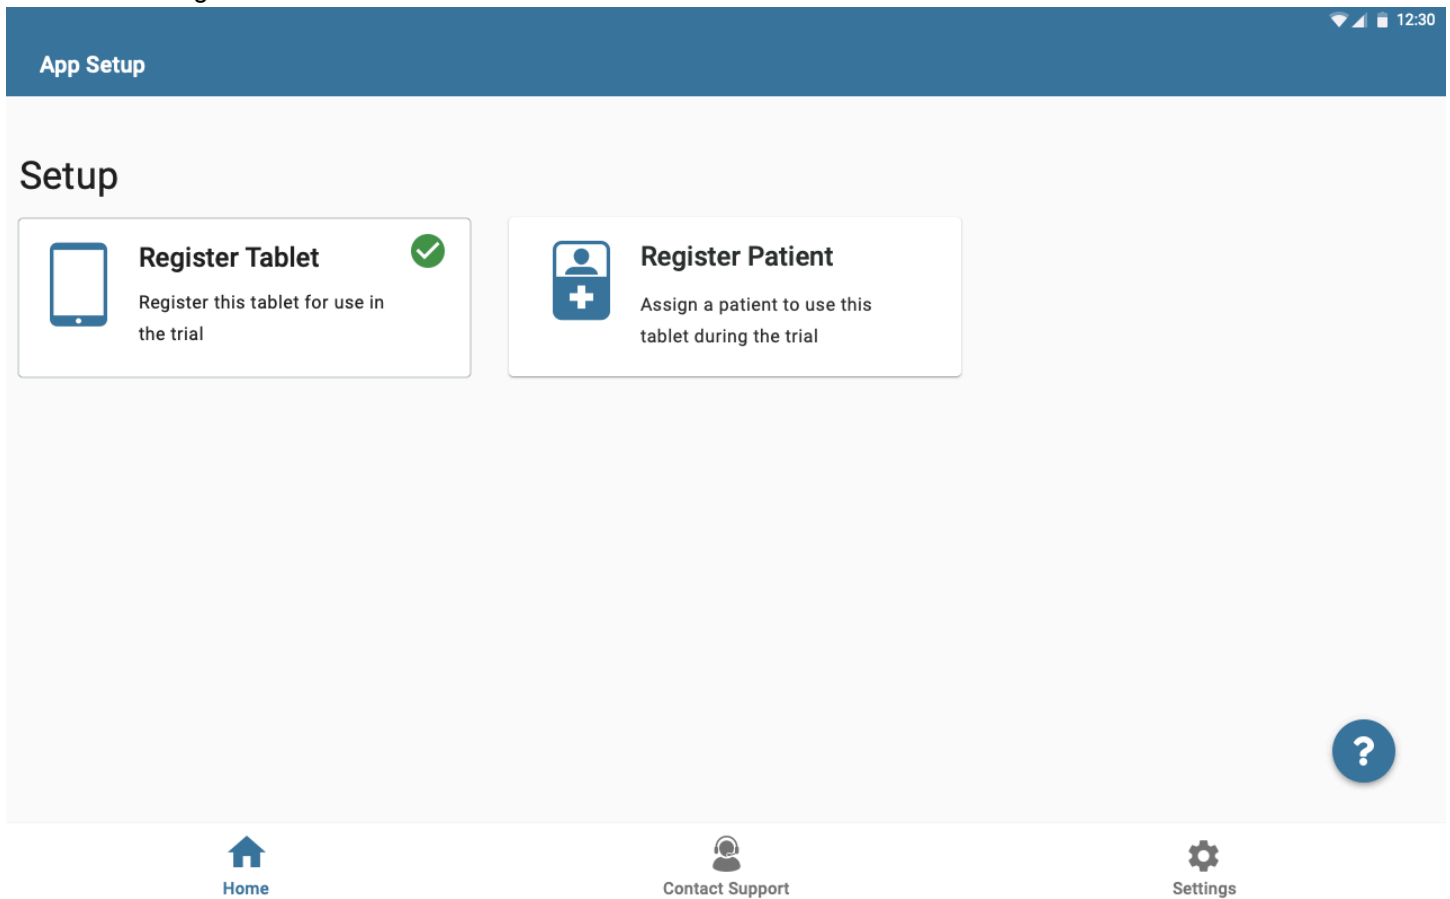

Tablet Registration Summary:

- ✓ Tablet Registration Complete: Yes
- ✓ Tablet MAC ID: 00:36:96:EE:FE:12:34:23
- ✓ Date/Time Registered: 02/01/2019 12:15:00 PM

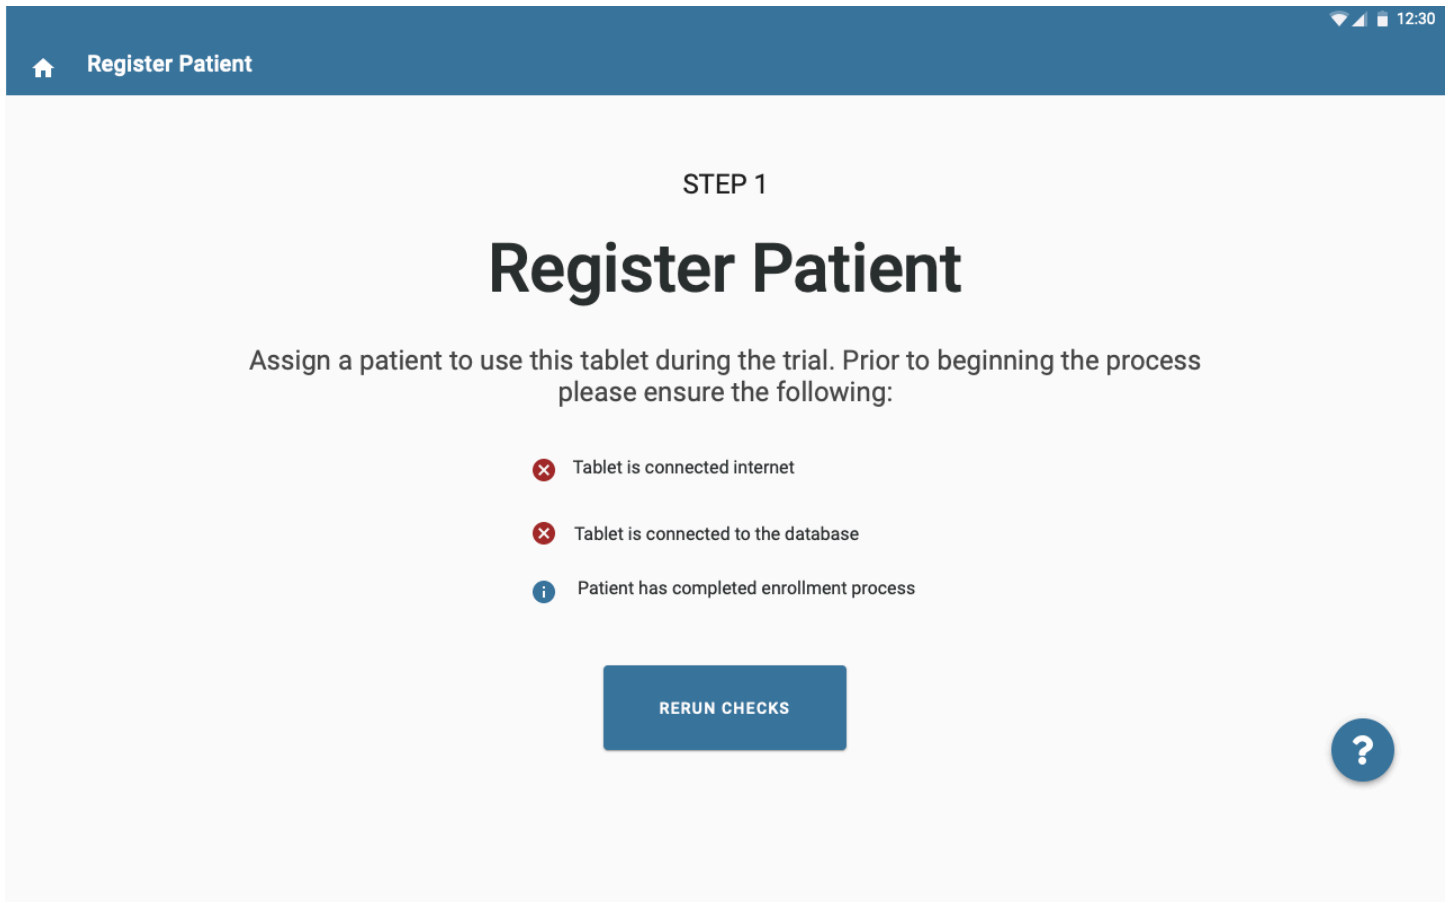

[DONE](#)

Register Patient

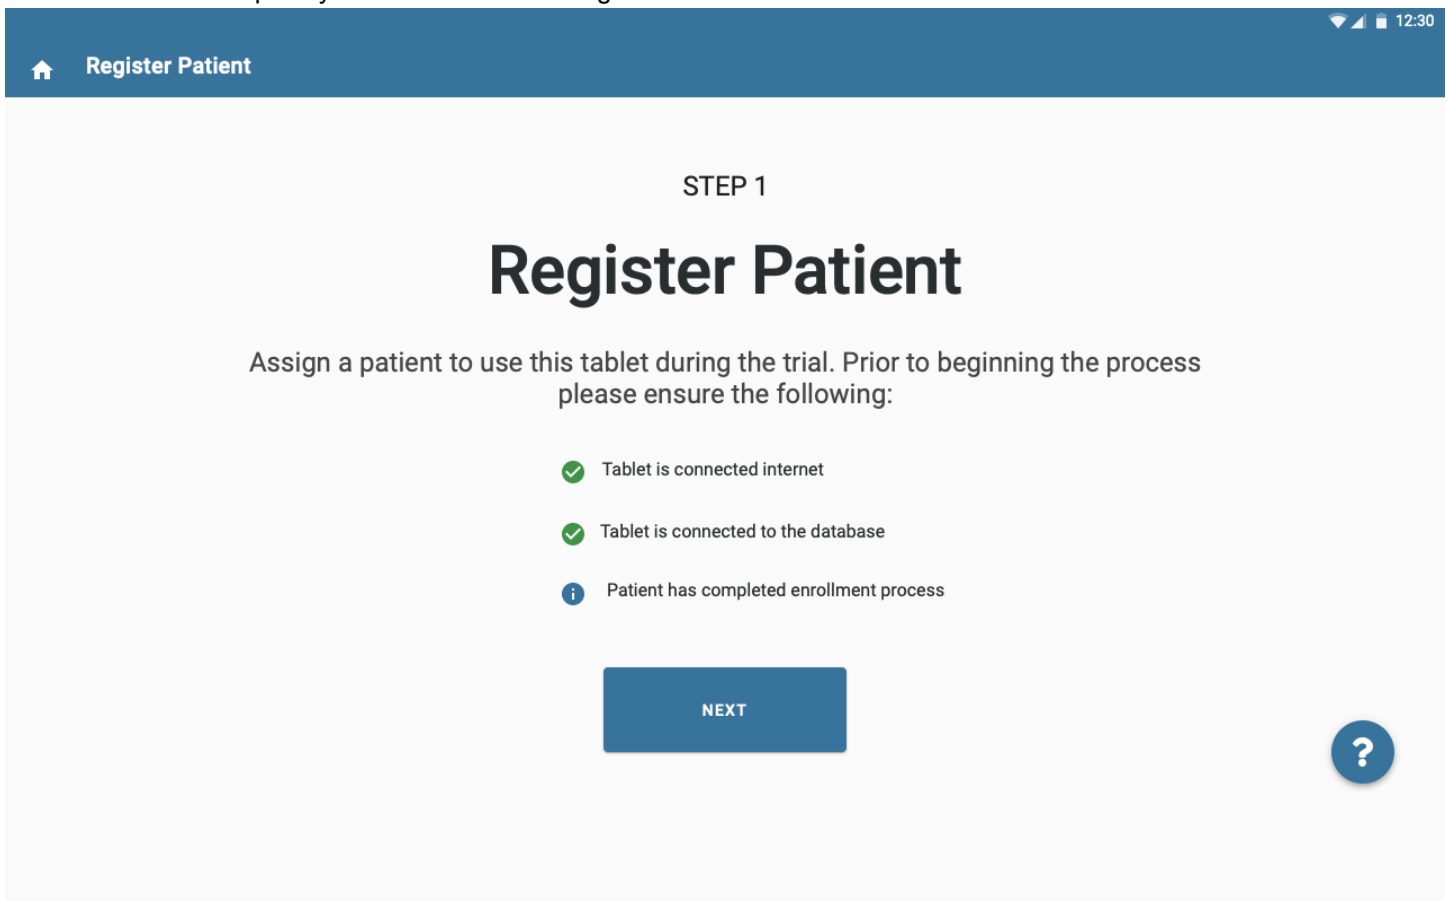

1. Click the Register Patient button on the home screen.

2. If the Wifi Checks fail, then please connect the tablet to Wifi and press the Rerun Checks button

3. Once the checks pass you will see the following screen. Press Next to continue:

4. Enter the Patient Code from the Web Portal in the text box and press Next.

STEP 2

Enter Patient Code

Enter the code for this patient that is displayed in the Assign Patient to Tablet screen in the web portal.

Patient Code
0f8168

PREVIOUS

NEXT

- Once the patient has been registered with the tablet you will see the following screen. Press Done to complete and go the baseline therapy home page.

Patient Registration Complete

The patient has been successfully registered to this tablet. Registration details are listed below:

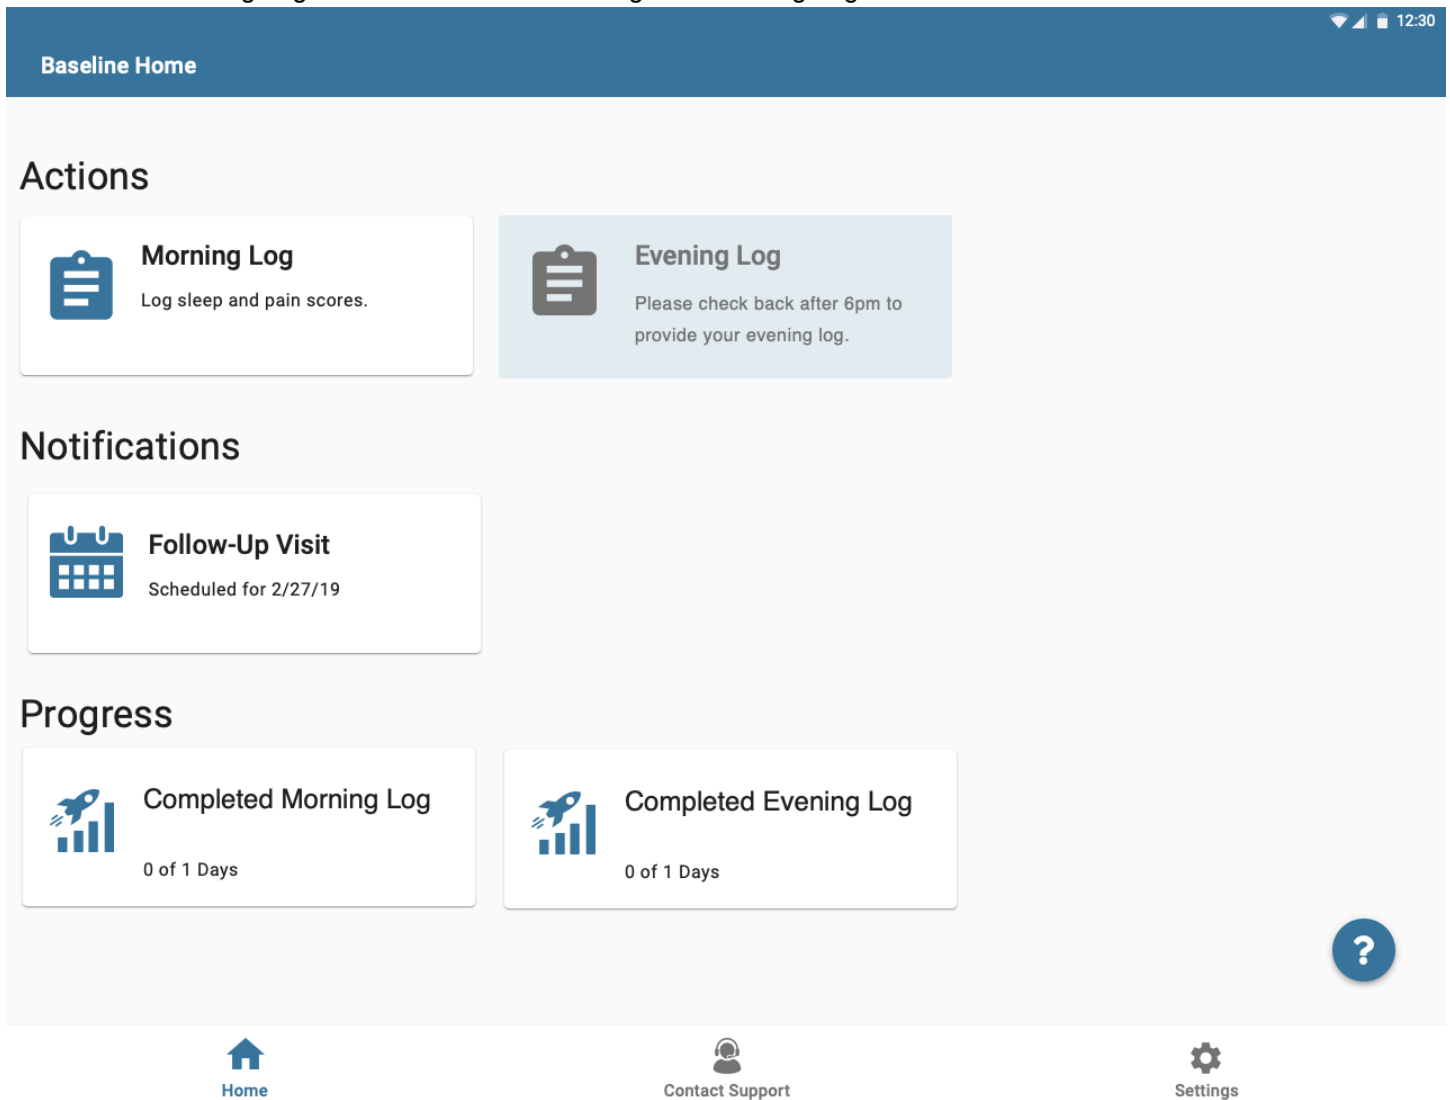

Patient Registration Summary:

- ✓ Patient Registration Complete: Yes
- ✓ Tablet MAC ID: 00:36:96:EE:FE:12:34:23
- ✓ Date/Time Registered: 02/01/2019 12:15:00 PM

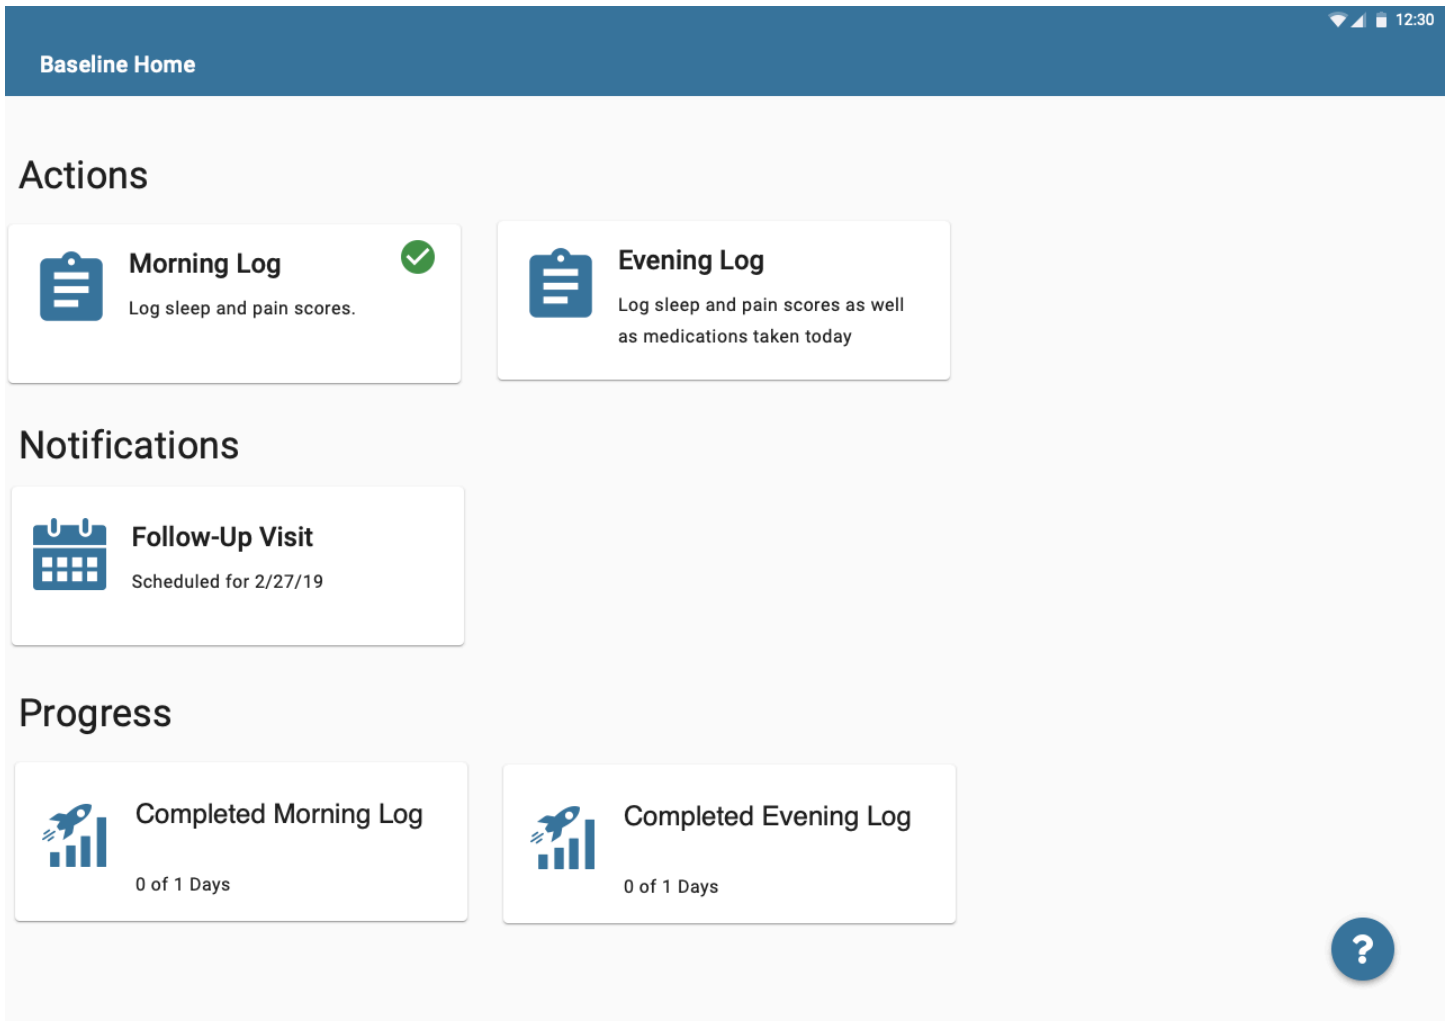

DONE

6. Click the Morning Log card to walk the user through the Morning Log flow

7. After you have completed the Morning Log, click the Evening Log card to walk the user through the Evening Log flow.

8. Click the Contact Support button on the bottom navbar to bring up the following screen and explain its purpose to the user.

Contact Trial Support

If you are having issues with your mask, tablet or completing any of your required tas please contact trial support at 308-090-0909 or by filling out the form below:

- Click the Next button after you have reviewed the content on the following screen.

STEP 1

Complete Morning Log

You will now complete your daily morning log by submitting all of the following information:

-  Your quality of sleep
-  Your level of pain
-  Unusual effects or experiences

NEXT

3. If the user is in the therapy stage and are using a mask then the patient should fill in the following question and click the Next button.

STEP X

Did you fall asleep using the mask

Select the response below that indicates if you fell asleep last night wearing the mask.

☐ Yes

☐ No

PREVIOUS

NEXT

- Next, the user will be presented with the screen shown below and asked to click a point on the line to indicate how well they slept last night. After they have selected a point they can click the Next button to continue or the Reset button to remove the point and try again.

STEP 2

How well did you sleep last night ?

Tap along the line to select your score. If you need to change your score click the Reset button and select your score again.

Did not sleep at all

RESET

Best night's sleep imaginable

PREVIOUS

NEXT

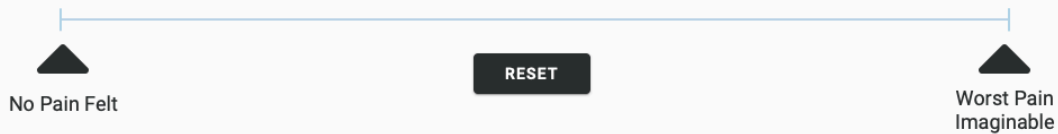

?

- Next, the user will be presented with the screen shown below and asked to click a point on the line to indicate how well they slept last night. After they have selected a point they can click the Next button to continue or the Reset button to remove the point and try again.

STEP 3

What is your pain level right now ?

Tap along the line to select your score. If you need to change your score click the Reset button and select your score again.

[PREVIOUS](#)[NEXT](#)

6. Next, the user has the option of providing any feedback they may think is relevant.

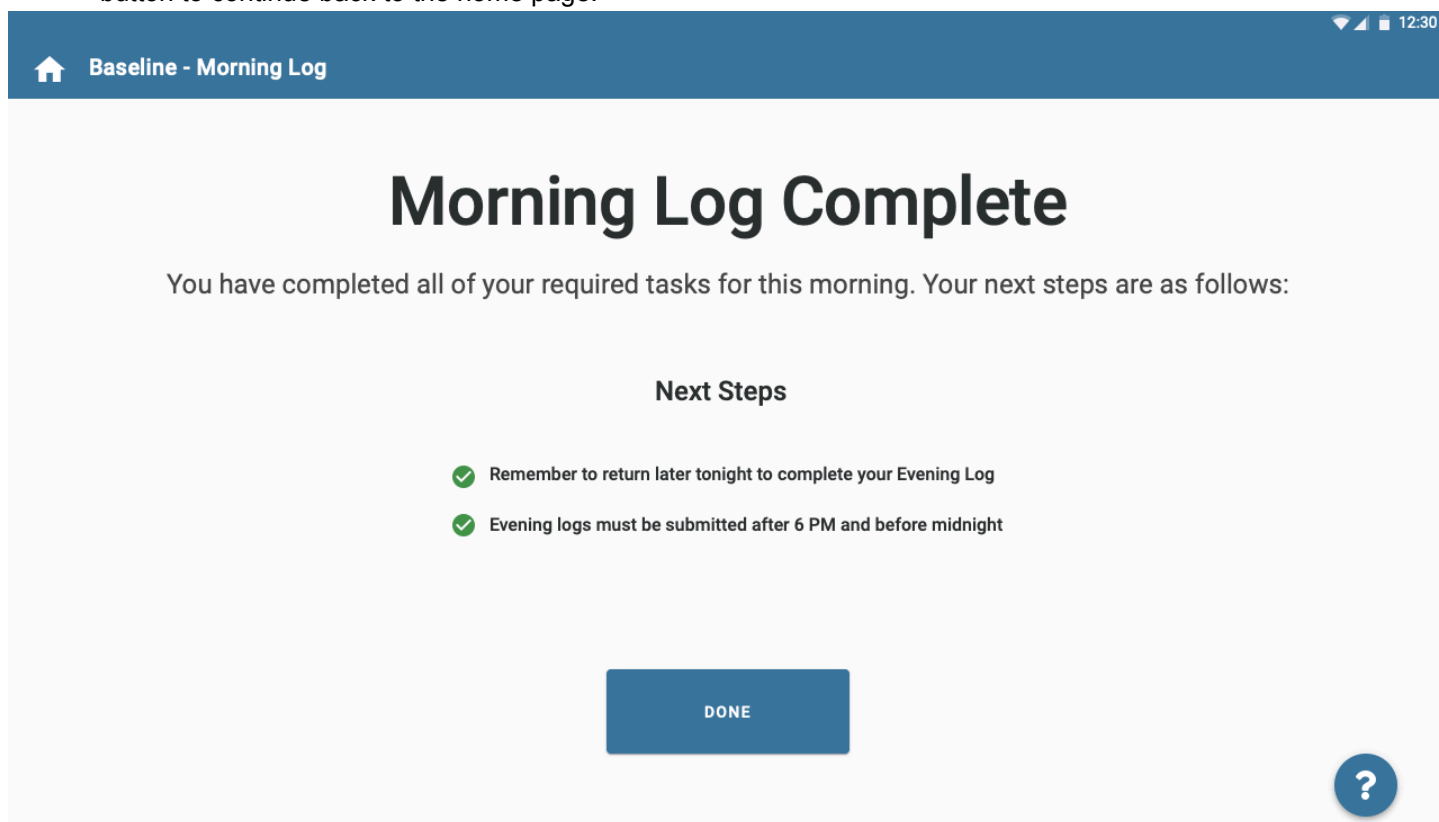

STEP 4

Anything else you want to share?

Please record any unusual effects or experiences you've had today (positive or negative) compared with a normal day.

[PREVIOUS](#)[NEXT](#)

7. Next, the user will see the screen below indicating their Morning Log is complete. They should click on the Done button to continue back to the home page.

8. The user should see a green check mark on the Morning Log button indicating it was completed today.

Actions

Morning Log

Log sleep and pain scores.

Evening Log

Please check back after 6pm to provide your evening log.

Evening Log

1. Click the Evening Log button on the home screen.

2. Click the Next button after you have reviewed the content on the following screen.

STEP 1

Complete Evening Log

You will now complete your daily morning log by submitting all of the following information:

-  Your level of pain
-  Medications you have taken today
-  Your smoking habits today
-  Unusual effects or experiences

NEXT

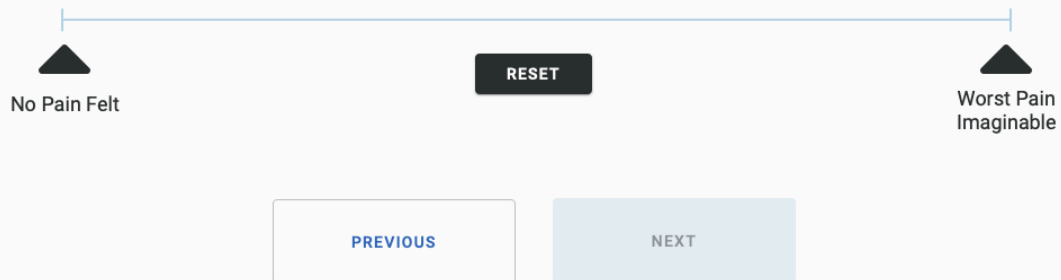

- Next, the user will be presented with the screen shown below and asked to click a point on the line to indicate their current pain level. After they have selected a point they can click the Next button to continue or the Reset button to remove the point and try again.

STEP 2

What is your pain level right now ?

Tap along the line to select your score. If you need to change your score click the Reset button and select your score again.

The interface shows a horizontal line with two black triangle markers at each end. Below the left marker is the text "No Pain Felt" and below the right marker is "Worst Pain Imaginable". A dark grey button labeled "RESET" is positioned in the center of the line. Below the line are two buttons: "PREVIOUS" (outlined) and "NEXT" (solid light blue). A circular help icon with a question mark is located on the right side.

- Next, the user will be shown the form below and asked to provide the amount of any pain related medications taken today. After the user has provided a value for each day, the Next button will be enabled and the user can click to continue.

STEP 3

Which medications have you taken ?

Use the form below to indicate all of the medications that you have taken today. If you did not take one of the medications listed today, enter '0'. If you do not see a medication that you have taken today listed, go to 'Contact Support' from the Home screen to report it to the trial coordinator.

Oxycodone / 1000 mg / Capsule

Count

Hydrocodone / 1200 mg/ Tablet

Count
